

Money Skills – Half Day

Who is this course aimed for

This ½ day course is for professionals and volunteers working with individuals who may be facing financial difficulties. This course will engage with front line staff working with vulnerable clients at risk experiencing financial issues. The ½ day course provides tools to equip staff to support clients with debt management, budgeting, saving and identifying essential household bills more effectively. With the rollout of Universal Credit money skills training is needed now more than ever to upskill frontline staff to support clients to manage their finances more effectively.

Learning outcomes

This training will give the opportunity for participants to:

- Understand the impacts of debt and budgeting effectively.
- Explore tools and resources to suit a variety of needs – including digital literacy.
- Be able to transfer these into our daily roles.
- Understand the impact of Universal Credit on individuals.

Benefits to Organisation

All courses are designed to increase skills and knowledge and to develop working practise. We can provide opportunities for employees to develop their continuous professional development (CPD) through courses.

We offer bespoke courses and tailored feedback to customers detailing the training impact on staff awareness, knowledge and capabilities. We aim to maximise staff performance and customer outcomes.

Prices

½ day courses – £40 per person
